Kozhikode , Kerala , India

praveesh.jpm@gmail.com

PROFESSIONAL SUMMARY

Front-End Developer with 4+ years of hands-on experience specializing in React.js, with solid expertise in Angular across enterprise and government projects. Proficient in React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Chakra UI, and Bootstrap. Passionate about building dynamic, user-friendly web applications with clean, maintainable code and exceptional attention to detail.

TECHNICAL SKILLS

Frameworks & Libraries : React.js, Angular 6+, Bootstrap, Tailwind CSS, Chakra UI, Material UI, Chart.js

Languages: JavaScript (ES6+), HTML5, CSS3

Tools & Platforms: Git, GitHub, VS Code

Soft Skills: Problem-solving, Communication, Collaboration, Adaptability, Time Management

WORK EXPERIENCE

Developer Analyst

ULTS | Calicut, UL Cyber Park | April 2022 – Present

- Developed and maintained production-grade web applications using React.js and Angular across multiple high-visibility government and enterprise client projects in India and the Middle East.
- Built K-Smart, a large-scale Kerala Government citizen services portal using React.js, Tailwind CSS, and Chakra UI — delivering a fully responsive, accessible UI for thousands of end users.
- Created reusable React functional components and custom hooks, improving code consistency and reducing duplication across feature modules.
- Integrated RESTful APIs with React front-end components, managing asynchronous data flow using fetch/Axios and handling loading, error, and success states cleanly
- Collaborated with UI/UX designers to implement pixel-accurate interfaces, and with back-end teams to define API contracts and ensure seamless data integration.
- Maintained and enhanced Angular 6-15 applications including a Vehicle Tracking System and File Management System for Kerala Government clients.
- Conducted regular code reviews and refactoring sessions to improve readability, performance, and long-term maintainability of the codebase.

Angular Developer

Init Solutions, Kochi | September 2021 – March 2022

- Built Angular front-end modules and reusable UI components as part of a collaborative development team.
- Integrated Angular components with back-end APIs using HTTP client services and reactive forms.
- Contributed to component architecture decisions and participated in sprint planning in an Agile workflow.

PROJECTS

K-Smart — React.js, Tailwind CSS, Chakra UI | Kerala Government

- Developed the front-end of a large-scale citizen services portal used by the public across Kerala, built with React.js and Chakra UI for an accessible, consistent design system
- Implemented responsive layouts using Tailwind CSS ensuring seamless experience across desktop and mobile devices.

Vehicle Tracking System — Angular 15, Bootstrap | Kerala Government

- Developed a real-time waste management vehicle tracking UI, enabling municipal authorities to monitor garbage collection vehicles across routes and zones.
- Built dynamic dashboards and status panels to track vehicle location, trip progress, and operational status in real time.

Embase Pro Suit — Angular 8, Bootstrap, Material UI | Education Institution

- Built modules for attendance tracking, scheduling, and reporting with Angular Material components, delivering a clean and consistent UI across the platform.

BookSeva — Angular 8, Bootstrap | Temples

- Built modules for attendance tracking, scheduling, and reporting with Angular Material components, delivering a clean and consistent UI across the platform.

EDUCATION

Master of Computer Application (MCA)

College of Engineering, Vadakara | APJ Abdul Kalam Technological University | 2018 – 2020

Bachelor of Computer Application (BCA)

MET Arts and Science College, Kallachi | Calicut University | 2013 – 2016
